

## Overview

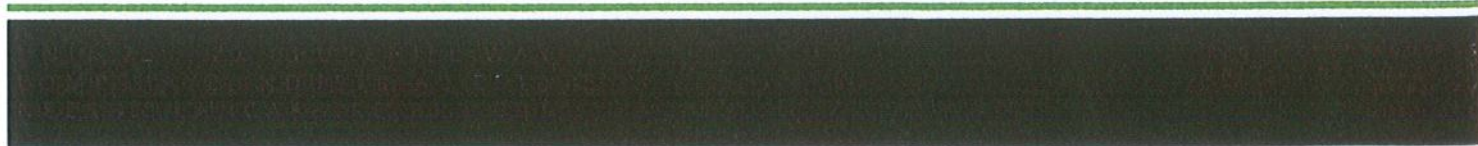

Following your recent request, please see below cost to install an Akuvox Video Intercom at Stage Door Youth Theatre.

A suitable locking device will secure the main entry door.

Staff will use a Proximity Fob to gain access to the building.

Visitors will use the 'Call' Button on the Video Intercom which will in turn call the Internal Answering Unit, where entry can be permitted or denied.

Should the intercom require a connection into the buildings fire alarm, a fire alarm interface should be provided by the fire alarm provider.
