

Colne in Bloom Report 21st June – 18th July 2026

Total of 103 Volunteering hours undertaken by:

Roger Alice Michael Linda Mary George Sammy Chris Colin

The Colne Town Council Lengthsmen re-sited a flower tower outside the market for the team to plant.

This month CIB have gained two new volunteers and Lord Street Primary School have helped too.

Despite the hot weather the team have been removing chickweed from the troughs, towers and containers; weeding the beds at Primet, Lanlee, SureStart, the war memorial and the library. They have continued to fill up the gaps with plants kindly donated by Asda and of course lots of dead heading of petunias and marguerites has been done. As the quad bike with the water bowser cannot be used at the railway station, watering cans have been used by the volunteers to keep everything blooming.
